

## GLOBAL HELICOPTER SERVICE

Whilst GHS may appear as a relatively new company, we have a good wealth of experience and expertise. Our core management team have over 150 years of safe aviation experience. Our crews and operations management are all „cherry picked“ from the Offshore Oil and Gas industry so that we have a good pool of experience in many different regions and a wide mix of operating practices that we have perfected. GHS has all the required skills and necessary procedures in place for immediate start of offshore operations.

Our ability to mobilize quickly and maintain peak operational readiness in any environment or part of the world allows us to reach beyond where others go.

### WIND FARM
