

GLOBAL HELICOPTER SERVICE

HUMANITARIAN AID OPERATIONS

The GHS team has more than ten years' experience providing helicopter operations in Africa as well as an extensive history of assistance to humanitarian aid missions.

From 2014 to 2016 GHS supported world leading humanitarian aid organizations (MSF, UN WFP, DFID) in the fight against the Ebola crisis in Sierra Leone and Liberia. Our services included the operation of Bell 412 helicopters for PAX and cargo transportation along with dangerous goods and the transportation of Ebola positive patients in specialised isolation units. As of 2016, GHS has been operating 6 helicopters supporting various humanitarian NGO's in the Borno State, north-eastern Nigeria.

Owing to our highly experienced team, stock of mission ready equipment, capability to ensure quick turnaround of our helicopters and crews, our ability to mobilise swiftly and commence operations on arrival to site after authorisation GHS has shown themselves to be leaders in providing services to our humanitarian aid clients in austere, remote and conflict affected environments.

Please contact us for any further information.
We look forward to your request - anytime, anywhere.
