

## P145 Maintenance Planning Engineer m/f/d

<b>Company:</b>	<b>Global Helicopter Service GmbH</b>
<b>Contract:</b>	Full time (40 hrs/week)
<b>Place:</b>	Kirchanschöring, Germany
<b>Start date:</b>	immediately

Global Helicopter Service GmbH is an internationally active aviation company that provides specialised helicopter services. These are currently provided to aid organisations and government institutions with the main focus on African countries and the Middle East. For this purpose, the helicopters used are serviced in the company's own maintenance operations, both in Germany and abroad.

### Description of the working environment:

Within the company, the order administration department is the interface for the CAMO, purchasing, logistics and sales, quality assurance and safety management departments, as well as the direct contact for active and potential customers.

### Your Tasks:

- Implementation, control and follow-up of ongoing projects in the maintenance organisation
- Scheduling of personnel and materials to ensure project specifications are achieved
- Purchasing of material in coordination with logistic and sales
- Assistance with maintenance requests / tenders
- Setup of work orders for the Part 145 maintenance organisation by utilizing of the Blue-MRO system and update of associated data

### Your Profile:

- Graduated engineer / technician / inspector in the field of aviation (not mandatory)
- Fluent in written and spoken German and English
- Experience or knowledge of maintenance programmes and project management
- Solution-oriented approach
- Quick comprehensive, open and communicative
- Flexible in terms of time and place as well as physically resilient
- Team player as well as self-reliant

We offer an exciting, internationally oriented working environment with a collegial working atmosphere and flexible working hours in consultation with the management.

Do you already have experience in aviation or are you determined to familiarise yourself with a highly complex and exciting environment? Then please send your letter of application, a meaningful CV, other documents relevant to your application and your salary expectations, preferably by e-mail to:
