**EASA PART 145**

# Maintenance Services

»A safe flight is our commitment«

# About GHS

**Global Helicopter Service was established in 2014 by a group of professionals with many years of experience in the helicopter industry.**

**GHS is certified to EASA regulations** for commercial helicopter operations & maintenance worldwide.

**GHS was and is involved in multiple projects** with leading humanitarian and governmental organizations such as Médecins Sans Frontières, the United Nations World Food Program and UN Peacekeeping, the International Red Cross and the European Defence Agency.

**We provide medical evacuation flights**, freight and passenger transportation incl. dangerous goods, aerial work, oil and gas rig support, airborne firefighting and governmental services.

**Our clients require uninterrupted availability of our helicopters** operating in harsh and remote environments. We provide maintenance

and repair services, as a core element of our business. To achieve this, we have established stations for line maintenance in every location we operate from and moreover we have base maintenance stations in Germany and Nigeria.

**All maintenance facilities are approved** by the German Civil Aviation Authority, Luftfahrt-Bundesamt (LBA) in compliance with EASA regulations.

**To meet the growth of our business and our customers expectations**, we have doubled our maintenance floor space in 2023 to ensure we are capable of supporting our helicopter fleet to the highest standards.

»Full Diagnosis & Lease Return Service«

»Highest Standards of Safety, Quality and Efficiency – anytime, anywhere«

»Highly Qualified Technicians«

»High Degree of Cost Control and Optimization of Maintenance Task Planning«

»We Guarantee our Customers a Maximum in Terms of Aircraft Availability«

## EASA-Part 145 Maintenance

Highly qualified and experienced GHS technicians provide line and base maintenance services at our Part 145 facilities worldwide. These locations undergo regular quality audits, along with adherence to GHS safety principles and optimized task planning. Our Maintenance Services include the following inherent values:

- In depth knowledge and wide-ranging experience
- A strong team of individuals with many decades of experience in commercial helicopter aviation all over the world
- Wide ranging base of different but complimentary expertise
- Conversant with the latest industry standards, regulatory changes and best practice working processes

## Aircraft Storage

At GHS we understand that proper storage is an important factor to ensure an aircraft is protected and secured thereby maintaining the value of our own and our customers' aircraft.

Our clean, secure and safe hangar environment provides all necessary measures to store the aircraft in line with manufacturer instructions. We offer:

- Hangar space only
- Short-term storage
- Long-term storage

## Logistics

We focus on providing uninterrupted turnkey services to our customers regardless of the country and location of the services. Logistic support is an essential activity involving planning, organizing, and managing the flow of spares and equipment, services and related information from our HQ to the base of operation.

We use our extensive previous experience to design and organize functional, tailored, logistical chains between suppliers, our corporate headquarters in Germany and our missions which are often located in areas that are very hard to access.

With our extensive partnerships and skillful logistics team, we arrange and manage all transportation requirements from the clients' location to our storage and maintenance facility and back.

This includes the mobilisation of aircraft to and from the base of operation as well as components, spare parts, equipment and tools.

- Ground Transportation
- Air Transportation
- Sea Transportation
- Ferry Flights
- Spare Part Logistics
